
django-filebased-email-backend-ng

Documentation

Release latest

January 18, 2015

1 Installation

3

Like `django.core.mail.backends.filebased` but writes out attachments, HTML alternatives, etc.
Useful for debugging/testing HTML emails, locally etc.

Installation

- Install to your PYTHONPATH
- Set *settings.EMAIL_BACKEND* to *django_filebased_email_backend_ng.backend.EmailBackend*.
- Check *settings.EMAIL_FILE_PATH*.
